

Using the Revision Assistant Libraries

Our *Signal Check*, *Spot Check*, and *Expansion Pack* libraries were expertly designed to fit together like books in a series. Below is one of many potential nine-week roadmaps for teachers using all three libraries. For more ideas on using Revision Assistant in the classroom and an in-depth list of activities, check out our [Curriculum Resources](#) page.

Week 1: Pretest

Give a pretest using a [Spot Check](#) to get a baseline for students' scores.

Week 2: Preparation

Prepare students for Assignment 1 by annotating [Expansion Pack](#) prompts and [Exemplars](#) for key elements.

Week 3: Formative Assignment

Give [Signal Check Assignment 1](#).

Week 4: Skill Building

Use the [Assignment Report](#) to see where students struggled on Assignment 1. Use [Expansion Pack](#), [Signal Check](#), and [Exemplar activities](#) aimed at improving weaker areas.

Week 5: Formative Assignment

Give [Signal Check Assignment 2](#).

Week 6: Skill Building

Use [Expansion Pack](#), [Signal Check](#), and [Exemplar activities](#) to improve weaker areas from both assignments.

Week 7: Formative Assignment

Give [Signal Check Assignment 3](#).

Week 8: Skill Solidifying

Use [Expansion Pack](#), [Signal Check](#), and [Exemplar activities](#) aimed at improving remaining weak areas from the assignments.

Week 9: Summative Assignment

Give a summative assignment using a [Spot Check](#) to see students' progress.
